NORTH CAROLINA
STATE LIBRARY

IN MEMORIAM.

Whereas it has pleased Almighty God to remove from among men our friend and coworker, William E. Crosland, whose death occurred on July 23, 1908; therefore, be it

Resolved, That the loss of Mr. Crosland comes as a personal grief to each member of this Board, upon which he has served so long and so efficiently; and the suddenness of his death reminds us most forcibly of the uncertainty of all things mortal.

Resolved, That as a member of the Board Mr. Crosland brought to the discharge of his duties the same conscientious fidelity that has always characterized his actions with reference to his private business. He was perhaps the largest individual farmer in North Carolina, and his personal affairs called constantly for much time and thought, yet such were his ideas of duty as a public official that he never felt that he had the right to miss a meeting of the Board, and during his seven years of service to the State as a director of the Prison he rarely failed in attendance upon the monthly meetings. To the family he leaves the heritage of a simple, earnest Christian life, without a stain upon it, and to the State he bequeathed a model for the public service worthy of all emulation.

Resolved, That these resolutions be spread upon the minutes of the Board, and that a copy be forwarded to the family of our deceased friend.

REPORT OF DIRECTORS.

Raleigh, N. C., January 1, 1909.

To His Excellency, Governor R. B. Glenn.

Sir:—We have the honor to submit herewith the financial report of the State's Prison and of the Hospital for the Dangerous Insane for the years 1907 and 1908, embracing the report of Hon. J. S. Mann, Superintendent; John M. Fleming, Warden, and Dr. James R. Rogers, Physician in charge.

These reports and the recommendations contained therein have all been carefully considered and approved by this Board, and are respectfully commended to your serious consideration.

Respectfully,

J. G. Hackett,
Chairman.
R. H. Speight,
S. H. Hearne,
Jno. P. Kerr,
W. I. Everett.

REPORT OF SUPERINTENDENT.

Raleigh, N. C., January 1, 1909.

To the Honorable Board of Directors of the State's Prison:

I beg to submit to you my fourth biennial report as Superintendent of the State's Prison.

On yesterday (December 31st) we paid every outstanding obligation of the Prison, and at the close of the day had on hand $141,356.70 in cash and $13,319.23 in solvent credits not due, and in farm products, unsold but valued at current market prices, and other cash assets, making a total balance of $154,675.93.

In 1906 we paid $6,584.07 for paving the walks of Capitol Square. In 1907 we paid to the general fund of the Treasury $175,000, and during 1907 and 1908 we have paid for the support of the Hospital for the Dangerous Insane $9,200, making a total previously paid from the earnings of the Prison to the use of the State of $190,784.07. This, added to the balance on hand December 31, 1908, would make the sum $345,460. Deducting from this $20,615.11, which was the net balance received from the management of the Prison under Governor Russell's administration, and we have left $324,844.89, which represents the surplus of earnings over expenditures under the present management during the last eight years, embracing the administrations of Governor Aycock and Governor Glenn.

The General Assembly of 1907 enacted three laws affecting the revenues of the State's Prison.

Chapter 152, Public Laws, directs the Board of Prison Directors to deposit with the State Treasurer, on or before January 1, 1909, a sum sufficient to pay what are known as "Prison bonds" and which amount to $170,000.

Chapter 262, section 6, Public Laws, appropriates $5,000 per annum for the support and maintenance of the Hospital

"The General Assembly of 1907 also passed an act authorizing and directing the Board of Prison Directors to pay to the State Treasurer $175,000 out of its earnings for use of the general fund of the State. (See chapter 896, page 1288, Public Laws 1907.)

"The Board of Prison Directors, on April 3, 1907, complied in full with chapter 896 and paid the State Treasurer the $175,000 for the general fund, as directed.

"At this time we think the Prison will have on hand on January 1, 1909, in cash, farm products and other cash assets, about $150,000, more or less. These assets, except a part of the farm products, can be paid to the State Treasurer on January 1, 1909, to be applied to the payment of the Prison bonds, as directed by chapter 152 of the Public Laws of 1907, but there will not be a sufficient amount to pay the bonds in full, and there will be nothing left for the maintenance and support of the Prison after January 1, 1909."

I have given this matter the careful examination and consideration that a matter of such grave importance demands, and am clearly of the opinion that you should pay over as much money as you have on hand on January 1, 1909, to the payment of the Prison bonds. The two acts seem to have been drawn hastily and without due consideration, but they are, as you suggest, mandatory and directory. It leaves nothing in the discretion of your Board, but confers a positive duty on you to pay over the money or as much thereof as possible. The act should, of course, have stated that you pay the Prison bonds and, after retaining enough for running expenses, cover the balance in the State Treasury for the general fund. But this is a mistake of the Legislature, with which we have nothing to do, and I think it is our duty to follow the law as laid down, so that we will not be criticised. It is indeed fortunate that the General Assembly meets so soon after this money is paid over, and I know we will have no difficulty in having an amount appropriated by them sufficient for running expenses of the State's Prison. Very sincerely yours,

HAYDEN CLEMENT,
Assistant Attorney-General.

On December 3d the Board of Prison Directors asked a conference with the Governor, and laid before him all the facts and fully explained to him the embarrassing condition of the Prison. The Governor called together the Council of State and, after the most careful and thorough consideration of the matter, formally advised the Board of Directors not to comply with chapter 152, Public Laws 1907, for two reasons, viz.:

1. That to do so would require every dollar of the Prison

funds and leave the institution helpless and a burden upon the State, and even then it could not pay the entire amount of the "Prison bonds."

2. That it was his opinion and the opinion of the Council of State that the Legislature did not intend to deal with the earnings of the Prison in such manner as to require an appropriation for its future support.

The Board of Directors earnestly desired to accept the advice of the Governor and his Council of State, and felt that in doing so they would best serve the interest of this institution and the State. At the same time they did not feel that they could conscientiously disregard and ignore a plain mandate of the Legislature. They have therefore to-day issued a voucher for $141,356.70, which represents the total cash balance belonging to the Prison, and have handed same to the Treasurer, as directed by chapter 152 of the Public Laws. But they have requested the State Treasurer, and he has consented, to hold this voucher and not use it or any portion of it in the payment of the "Prison bonds" until after the Legislature of 1909 shall have convened, in order that it may, if it so desires, pass an act authorizing him to return the voucher to the Board of Directors and not require the expenditure of the Prison earnings in payment of the bonds. If the Legislature shall take this course the Prison will have ample funds for its future maintenance; but if the Treasurer is required to use the voucher as a payment on the bonds, there will remain in the hands of the directors only $13,319.23 of assets, and serious embarrassment may result.

PHYSICAL CONDITION.

The physical condition of the institution is entirely satisfactory. The buildings and furniture are in good repair. The supply of drinking water from the new well, 752 feet deep, recently drilled and equipped, at a cost of $5,000, is abundant and excellent. The buildings and grounds are in sanitary order. The general health for the past two years

has been good and the death rate low. There has been no disorder, but on the contrary the inmates have been obedient to authority and respectful in demeanor—a result, I believe, of firm but kind treatment and a liberal provision of the necessaries of life.

Brickmaking was discontinued in midsummer, for the reason that there was but little demand for brick, and I found it convenient and more profitable to use the labor in other work. The brick plant is in good order, and we have on the yard at least 800 cords of dry wood for future use. Arrangements have been made to resume work in the early spring.

THE STATE FARM.

The farm has not yielded as well as usual for the last two years. Heavy rains and river floods were very destructive to the growing crops during both seasons, but particularly so in 1908. The damage by the river in August last, by careful estimate, amounted to at least $25,000. Almost the entire corn crop was destroyed, as was also the crop of field peas. Portions of both the cotton and peanut crops, too, were utterly ruined.

Report 1907-1908

We have employed about 300 prisoners, as usual, in cultivating the farm. Many of these, however, are not robust, either on account of age or other physical infirmities, and, while capable of doing various kinds of farm labor, could not be profitably used in other work.

New and comfortable dwellings have been built, at a cost of $3,600, and are now occupied by the supervisors and their families. These add much, not only to the value, but to the attractiveness of the farm. Other buildings have been kept in repair, and all are in good condition.

CONTRACTS.

We have found from experience that there are usually about 300 prisoners available for contract work, and have endeavored to keep that number thus employed.

For nearly a year and a half we have had a camp of seventy-five men in Surry County at work upon the Elkin and Alleghany Railroad, and seventy-five in Hyde and Beaufort counties at work upon the Mattamuskeet Railroad. The State is interested as a stockholder in both of these enterprises and pays to the Prison the regular contract price for its labor.

For several years we have had a contract for 150 men with Messrs. Wade & Morrison, who were engaged upon work for the Atlantic Coast Line Railroad, but this expired on yesterday (December 31st) and has not been renewed. I have, however, made two new contracts for seventy-five men each and extending until May 1, 1909—one with the Atlantic Improvement Company, of Fayetteville; the other with the Navassa Guano Company, of Selma. Since September, 1906, the contract price for Prison labor has been $1.50 per day for each man.. This price remains unchanged in the new contracts.

COUNTY CHAIN GANGS.

In our desire for internal improvements in North Carolina, and especially for good roads, we seem to have lost sight of the fact that crimes are committed, not against the county, but against the State. The convicted criminal is the property of the State and not of any county. It is the duty of the State not only to protect the law-abiding by depriving the criminal of his liberty and punishing him for his crime, but it is also the sacred duty of the State to protect the criminal from cruelty, abuse and inhuman treatment, and to provide in a proper manner for his welfare and maintenance.

Under special acts of the Legislature about forty counties in North Carolina have organized what are known as chain gangs and use them in the construction and improvement of their public roads and highways. From the report of the Board of Public Charities it will be found that there are more than 1,200 prisoners in these chain gangs serving sentence for crime. The State has granted to the counties abso-

lutely and unconditionally the full management and control of these prisoners, and has endeavored to surrender its responsibility for them, not even reserving a supervisory or inspectionary authority. Without the least concert with one another, each county is in supreme control of its own gang, prescribes its own rules of discipline, of clothing, of feeding, of guarding, of quartering and of working. Consequently, in addition to what is known as the State's Prison, North Carolina has forty wholly independent State prisons, under forty separate and distinct managements, with forty different and distinct sets of rules and regulations, and over which there is absolutely no State supervision and inspection. The hospital facilities, at least, of all these many prisons are inadequate and defective, for in none of the counties is there a place, except the jail or workhouse quarters, where the sick or the enfeebled or the demented can be cared for and cured. I have been informed, but cannot substantiate the statement, that the average life of a road convict is less than five years. All prisoners are at least human beings, very many are intelligent, and some are possessed of refined sensibilities. A large proportion of them are capable certainly of serving their sentences and afterwards of becoming useful citizens. None are mere working machines which the State should condemn to unremitting toil and unendurable hardships, only to be worn out and buried within a few months or, at most, in a few years. The law evidently intends the punishment to fit the crime, and that persons convicted of felony and given long terms shall be sent to the State's Prison, while those convicted of less serious offenses, especially misdemeanors, shall be given shorter terms and lighter work upon the roads. And yet, under existing conditions, it is strangely true that harsher and more vigorous punishment is inflicted upon the petty offender than upon him who commits the more serious crime.

The present chain-gang policy of our State—it is in no sense a system—cannot be successfully defended, and ought to be at once discontinued. The civilization of our age de-

mands it. I believe it to be in every respect as defective and as full of possibilities for wrongdoing, cruelty and inhumanity as was the old convict-lease system, now long since abolished. I do not mean to charge that acts of cruelty and brutality have been actually committed in any county, nor that the prisoners of any county have suffered from overwork and neglect, but I do mean that the possibility for such things has existed and does exist, and, if the present policy is continued, I feel it will be only a matter of time when it will bring upon our State deserved criticism and an unenviable notoriety. The State cannot surrender nor evade responsibility for those whom it has fettered for crime.

Every person in North Carolina under conviction and serving a term of imprisonment for crime should be under the direct, immediate and exclusive care, management and control of the State.

They should all be subject to the same identical prison rules and discipline.

They should all be comfortably clothed, and all of the same degree of crime should wear the regulation uniform.

They should all be given the same quality and a sufficient quantity of wholesome food, properly prepared.

Prompt medical attention and adequate hospital facilities should be provided for the sick and those who during their term have become worn and debilitated or demented.

The necessity for building and improving public highways and of obtaining labor for this purpose at a minimum cost was responsible for the original formation of the county chain gangs. Much progress has been made in road building since then, and good roads are now recognized as perhaps the best agency for local and State development. I believe the State can use its convict labor to no better advantage than in constructing permanent public highways in the most scientific and thorough manner, but always under the management and control of the State and not of the county. I therefore respectfully submit for your consideration the following recom-

mendations, with the request that, if they meet with your approval, you will transmit them to the Governor and ask his endorsement of them to the General Assembly:

That all chain gangs in North Carolina be totally abolished.

That all persons convicted of felony, less than capital, be committed direct to the State's Prison.

That all persons convicted of misdemeanors and sentenced to terms of imprisonment be committed either to the State farm or to the nearest misdemeanor camp.

That all persons committed to jail to await trial, except those charged with capital felony, be given the privilege, with the consent of the State authorities, to join the nearest established misdemeanor camp as a member and subject to the rules and discipline thereof until the time of trial, and, if convicted, the sentence given to be shortened by the length of service before conviction, and, if acquitted, to be paid by the State authorities the same wages per day for the service rendered before trial that is being received for misdemeanor prisoners, less the cost of transportation.

That all persons serving sentences for crime, whether felony or misdemeanor, shall be under the management, direction and control of the Board of State Prison Directors as fully and completely and exclusively as the State Prison now is.

That the said Board of Directors shall have full authority to transfer misdemeanor prisoners from one point in the State to the State farm or to any other point, in their discretion, either for work or for hospital attention, but shall not be authorized to mingle together persons convicted of felony and those convicted of misdemeanors, either at the farm, in camps or upon any kind of work.

That all misdemeanor prisoners be required to wear an adopted uniform, but not the regulation convict stripes.

That a competent civil engineer be employed by the State and paid an annual salary, whose duty it shall be to lay out in a proper and scientific manner any public road or highway in the State which is proposed to be constructed or improved with convict labor.

That any county in the State that desires to use convict labor in the construction or improvement of its highways shall apply first to the State Engineer to lay out and make plans for said work or to approve plans already made.

That the said county shall then apply to the Board of State Prison Directors for the number of convicts desired for the work, this number in no case to be less than fifty.

That the Board of Directors, as soon as possible after the receipt of the application and the approval of the State Engineer, shall furnish the labor requested and proceed to construct or improve the highway, under the direction of the State Engineer.

That all applications from counties for convict labor shall be honored in turn according to the date of their receipt, except that no county may use at any time more than 100 if an application from another county is pending and no labor is available for it.

That counties using convict labor shall pay to the State therefor the sum of $1 per day for each laborer, shall pay all transportation charges one way, shall furnish quarters, to be approved by the Board of Prison Directors, for prisoners and employees; shall also furnish pure drinking water and necessary firewood for camp use, and shall furnish overseers to direct the work. All other expenses of every kind whatever shall be borne by the Board of Prison Directors.

THE HOSPITAL FOR THE DANGEROUS INSANE.

This hospital is located in the west wing of the State's Prison, with wards and equipments for the accommodation of fifty patients. It was incorporated by the Legislature of 1901 and placed under the management and control of the Board of State's Prison Directors. (See chapter 755, Public Laws 1901.) The act of incorporation endeavored to entirely separate the hospital from the Prison, and yet to locate it within the Prison walls and within the Prison building itself and under the management of the Prison Directors.

Section 1 of the act provides "That the Hospital for the Dangerous Insane is hereby created a corporation, * * * and shall be under the direction and management of the Board of Directors of the State's Prison. * * * The said hospital shall be located in the wards of the State's Prison, where the dangerous insane are now cared for." * * *

Section 3 provides: "It shall be the duty of the board of directors of said corporation, as soon as practicable, by partitions, walls and otherwise, to fully and completely separate the said hospital from said Prison, and they shall change the same so as to conform to the purpose of a hospital for the insane; * * * and the said hospital shall not be a part of the State's Prison, but shall be the State Hospital for the Dangerous Insane."

An appropriation from the State Treasury was made for the maintenance of the hospital and another for the improvements, while no appropriation was made or needed for the State Prison. The Board of Prison Directors have earnestly striven to carry out the wishes of the Legislature as manifested in the law, and to keep the institutions as separate as the conditions would permit.

In my report dated January 1, 1905, I said: "The capacity of the institution is fifty, but there are now fifty-four inmates. In consequence of this overcrowded condition we are compelled each night to lock four patients in Prison cells, thus violating the spirit if not the letter of the law."

In my report dated January 1, 1907, I said: "The department is intended and built to accommodate fifty people, while the average number cared for during the year has been fifty-three. This crowded condition has necessitated the confinement of three each night in cells of the Prison."

It becomes my duty now to report that during the past year the average number of patients has been sixty-one, and of this number we have been compelled to confine thirteen each night in Prison cells.

The Legislature of 1907 still further obliterated the line of division between the institutions by requiring the Prison, out of its earnings, to maintain the hospital, instead of making an appropriation from the Treasury for its support, as in the case of other State insane hospitals.

Eight years of experience in the service of the Prison have but strengthened my conviction that it was a mistake to make this hospital in fact a department of the Prison. The humanity of our law will not permit an insane person to be convicted of crime. Neither will it permit an insane person to be punished for committing an act which would be a crime if committed by a sane person. I am therefore unable to see either logic or humanity in the law which authorizes or permits confinement in the State's Prison, and actually in felons' cells, of persons who have been formally declared by the courts themselves to be insane and irresponsible for their acts. I believe this hospital ought to be separated in fact from the Prison and made an independent institution, or else connected with other insane hospitals and its inmates given the same considerate care, attention and treatment that the State's other unfortunates of the same class receive.

The Hospital for the Dangerous Insane must receive and treat patients of both races and both sexes. This requires the maintenance of four separate departments and the utmost vigilance and care on the part of the management and attendants to prevent wrongdoing and scandal.

The cost of maintaining the institution during the past fiscal year has been $5,768.36.

I am glad to be able to report the department in good physical condition. The inmates have been well cared for and provided with the necessaries of life. The general health has been good and no serious trouble of any kind has occurred.

If the hospital is to remain as at present located, and the management expected to receive all who may be committed to its care, even if necessary to consign them to cells for safe-

keeping, then it will be necessary to ask for an appropriation of $7,500 per annum instead of $5,000, as heretofore. But an appropriation of $5,000 per annum will be sufficient for the support of the institution up to its capacity.

Respectfully submitted,

J. S. Mann,
Superintendent.

REPORT OF WARDEN.

Raleigh, N. C., December 31, 1908.

Hon. J. S. Mann, *Superintendent.*

Sir:—As Warden of the State's Prison, I have the honor to submit the following as my report for the two years ending December 31, 1908:

DISCIPLINE.

The discipline of the Prison is good—has never been better. There has been no outbreak against the rules, and everything is moving along smoothly.

MACHINE SHOP.

The work of the machine shop has been confined to repairs.

BRICKYARD.

We have made and sold $15,521 worth of brick and have on hand about 70,000.

GARDEN.

Our garden has furnished an abundant supply of vegetables in their season.

RELIGIOUS SERVICES.

Religious services are held every Sabbath; Sabbath school by Messrs. Whiting, Pullen, Blake and Sandwich, and Mrs. Blair and Rev. C. Johnson, from 2 to 3 o'clock, and preaching from 3 to 4 by a minister of the city.

I have in bank to the credit of the Sabbath school and library fund about $560, which will be expended for books as a nucleus for a library.

Respectfully submitted,

Jno. M. Fleming,
Warden.

REPORT OF PHYSICIAN.

RALEIGH, N. C., January 1, 1909.

To the Superintendent and Honorable Board of Directors of the State's Prison:

GENTLEMEN:—I have the honor to submit herewith my biennial report of the Medical Department of the State's Prison for 1907 and 1908. The table below will show the character of work done.

During the two years there have been admitted to the Prison 324 persons. Of this number, 43 were unsound and 281 were sound. Our mortality for all causes, except consumption, has been very small, and, compared to the number treated from the central prison and including those returned from the farm and the camps, the death rate from tuberculosis has been also very small.

The sanitary condition of the entire Prison is good. The grounds, cells and wards are clean and well kept. The new sewerage system, leading entirely away from the building and emptying into the main sewer with the A. and M. College and the city, will prove a great protection.

The drinking water, coming from deep wells, is abundant, pure and less liable to infection, and is a step forward above the line of modern sanitation. We have not had a single case of typhoid fever originating in the Prison during the two years. There were, however, several very malignant cases sent to the Prison from the camps, two of which died in a few days after reaching the Prison.

Respectfully submitted,

JAMES R. ROGERS, M. D.,
Prison Physician.

BIENNIAL REPORT OF MEDICAL SUPERINTENDENT STATE HOSPITAL FOR DANGEROUS INSANE.

RALEIGH, N. C., November 30, 1908.

To the Honorable Board of Directors:

The Medical Superintendent of the State Hospital for Dangerous Insane submits herewith his biennial report for two years ending November 30, 1908.

The general policy of the medical department of this institution has been maintained along the lines previously established, and set forth in full in my biennial reports of 1902, 1904 and 1906. The dangerous insane hospital, as you know, continues to be located in the west wing of the State's Prison building. The disadvantage of caring for this class of patients within the penitentiary enclosure I set forth in my first report, in 1902. A centrally and rurally located institution, where all the dangerous insane of the State may be cared for, is urgently needed.

I wish particularly again to emphasize the fact that the population of the hospital is steadily increasing, while the capacity of the present building has been taxed to its utmost from the very beginning. I would again call attention to the fact, which I have previously reported, that it is necessary, because of lack of room, to confine dangerous insane patients at night in prison cells in the State's Prison. Ten per cent. are now sleeping in prison cells. This means that we have actually not room to take care of our patients at the present time, while, in spite of this fact, more patients are constantly being committed by the Judges and forced upon us. I again most respectfully request that this matter be looked into and corrected, either by providing room for a larger number of patients in the hospital or by authorizing us to refuse to accept more patients than we can accommodate in the present building.

The improvements which I deem necessary at the present time, and which should be provided for by the present Legislature, are as follows:

To replace the old, worn wooden stairways by fireproof ones, and to place permanent partitions between certain of the wards which are now separated by flimsy temporary board ones.

The floors of water-closets and bath rooms in an institution of this sort should be of nonabsorbent material, either cement or tile. The wooden floors which we have used up to this time are hard to keep clean and free from odor with this class of patients.

It is absolutely necessary, also, that permanent provision be made for the increase in population. The increase over last report has been 15 per cent. As stated above, 10 per cent. are sleeping in prison cells. We have to ask, therefore, that the matter of providing for this increase be seriously considered at once by this session of the Legislature.

For maintenance of the department, aside from permanent improvements, an annual appropriation of $7,500 is required.

The appended tables summarize the cost of maintenance, the changes in population during the past two years, and records, admissions and discharges since my last report.

DANGEROUS INSANE DEPARTMENT.

	Male.	*Female.*	*Total.*
